# Streamline AP for Accounting Teams

Quadient AP helps finance teams run more efficiently, and spend less time on manual, error-prone tasks like data entry.

EMPOWER EVERY MEMBER OF YOUR ACCOUNTING TEAM

Finance Leaders
Drive down back-office costs and gain real-time visibility into payables data to make the right decisions

Controllers
Find approval bottlenecks, pay vendors faster, and get more done with fewer resources
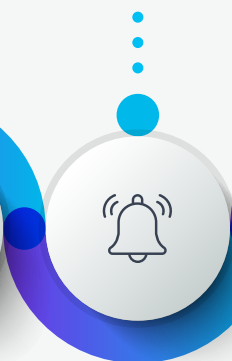

AP Professionals
Cut down on manual, inefficient tasks and spend your time doing more enjoyable work

QUADIENT AP WORKFLOW

Paper & Emailed invoices are automatically captured & coded into Quadient AP

Invoices follow an approval channel and budget holders are notified

Invoices are exported into your finance system ready to be paid

Invoices are sense checked by AP team

Budget holders approve the invoice on Quadient AP
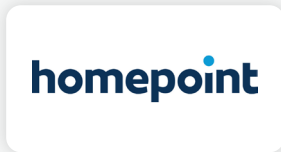

Reimagine Accounts Payable

Empower your accounting team to work smarter and reduce your invoice processing costs by 86%.

> " We have gone paperless since we have joined the AP automation world... There's not as much manual input, so we have reduced errors."
>
> *- Andrei Viscu, Finance Integration Specialist at Steer Automotive Group*

TRUSTED AS THE BEST AP SOFTWARE, BY 2100+ FINANCE TEAMS TO STREAMLINE THEIR AP PROCESS

Visibility and Control for Your Entire AP Process

Eliminate 83% of data entry, with AI-powered header and line item data capture, so your team can focus on higher-value tasks. Gain 360-degree visibility and control of all four AP workflows in one place like POs, invoices and expenses.
