Sage Fixed Assets Management

Streamline fixed asset management from acquisition to disposal

Organizations need simplified and accurate accounting throughout the fixed asset management life cycle. However, most companies have multiple sets of asset acquisition, depreciation, and disposal information. Sage Fixed Assets Management offers support for depreciating an asset to an unlimited number of books for different accounting standards or tax authority requirements. It streamlines fixed asset management by automating the life cycle from acquisition to disposal, increasing control over your processes and data, and delivering rich, real-time insights to inform business decisions.

View high-level information from the central asset and then drill down for the details.

Save time at month/year-end with automation from acquisition to disposal

- Manage the complete asset lifecycle from acquisition to disposal with the flexibility to depreciate assets using GAAP-compliant depreciation methods and conventions to meet various regulatory rules.
- Maintain assets once to meet the requirements of multiple tax jurisdictions.
- Save hours of time and improve depreciation accuracy along with disposal of assets. Automatically generate gain or loss and disposal journal entries.
- Eliminate manual booking of depreciation expenses in the GL with automatic month-end depreciation posting.
- Depreciate assets in as many ways in various depreciation methods and conventions, via daily, straight-line, declining balance, etc.

Make informed decisions with rich, real-time reporting and insights

- Report on your data in real time. Easily view an asset's lifecycle by drilling down to the asset dimension directly from the GL.
- Track how asset costs are distributed by location, department, project, and more using dimensional tagging to tag bills, invoices, or other transactions.
- Fixed Asset as a dimension enables seamless reconciliation between GL and fixed assets subledger to simplify reporting.

Increase control over processes, secure data, and reduce risk with complete audit trails

- Assign asset classification to assets to default depreciation rules and GL accounts. You have the flexibility to override any information on the asset.
- Create assets at the company or entity level. Flexibly manage and safeguard your central asset register, which includes multi-currency and multi-location, for depreciating and non-depreciating assets.
- Trust that your data is always secure and accessible, thanks to world-class security, cloud backups, and disaster recovery.
- Reduce monthly close cycles by as much as 90% with clear audit trails, total control over your processes, and visibility into your assets.

Ease of setup and maintenance

- Get up and running quickly and easily with intuitive, quick setup designs.
- Eliminate manual upgrades with automatic cloud upgrades.
- Free your IT and technology teams to focus on IT strategy.
